

RACE ROCK

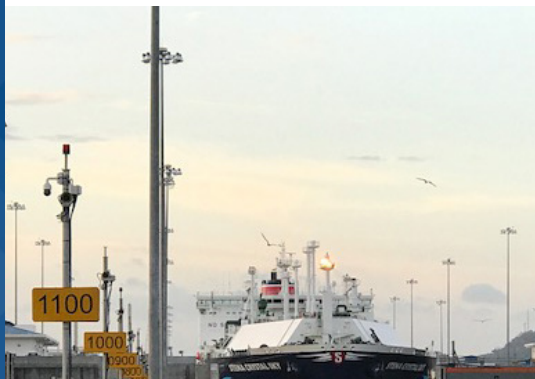

TRANSPORTATION &
LIGHTING SOLUTIONS

Perfect Fit. On Time. Every Time.

Transportation
& Lighting
Solutions

Perfect Fit. On Time. Every Time.

Race Rock designs and manufactures a broad range of transportation and lighting infrastructure for DOT, municipal, utility, airport, and other demanding applications.

From high-mast and roadway lighting to traffic signals*, ITS poles, sign structures*, and lowering systems, our in-house engineering and manufacturing teams deliver standard and custom solutions engineered for long-term performance.

Our Solutions

- **High Mast Poles & Lighting**
- **Stratus Lowering Devices**
- **Roadway Illumination Poles***
- **Traffic Signal Poles***
- **Camera & ITS Poles**
- **Overhead Sign Structures***

**Texas market only*

STRATUS
PRODUCTS

Quality You Can See

Rigorous fabrication and material standards help improve long-term performance and reduce maintenance concerns.

- **Multiple Certified Welding Inspectors (CWI)** on every shift
- **Level II NDT technicians**, no trainees
- **End-to-end QC** across every fabrication stage
- **Full post-galvanizing inspections** for structural integrity and coating quality
- Critical Stratus components available in **corrosion-resistant 316 stainless steel**

Engineering That Delivers

In-house expertise focused on safety, reliability, and long-term performance — delivering solutions, not just structures.

- **Standard and custom** transportation structures
- **Tailored designs** developed around loading, site, and environmental requirements
- **Engineering support for DOT** and project-specific specifications
- **Real-time cross-team collaboration** across all phases
- **Custom pole** heights, configurations, materials, and finishes
- Solutions for **conventional and unconventional applications**

Dependable Performance — Above and Below

Transportation and lighting systems engineered for reliable operation, long service life, and more efficient maintenance.

- **Proven solutions** for demanding roadway environments
- **Stratus systems** provide ground-level access to high-mast lighting equipment
- **Top-latch and bottom-latch** configurations
- **Internal and external drive** options
- **Durable components** designed to withstand repeated operation
- **Custom solutions** for DOT, airport, port, railroad, and industrial applications

A Partner You Can Trust

Personal Attention. Enterprise Delivery.

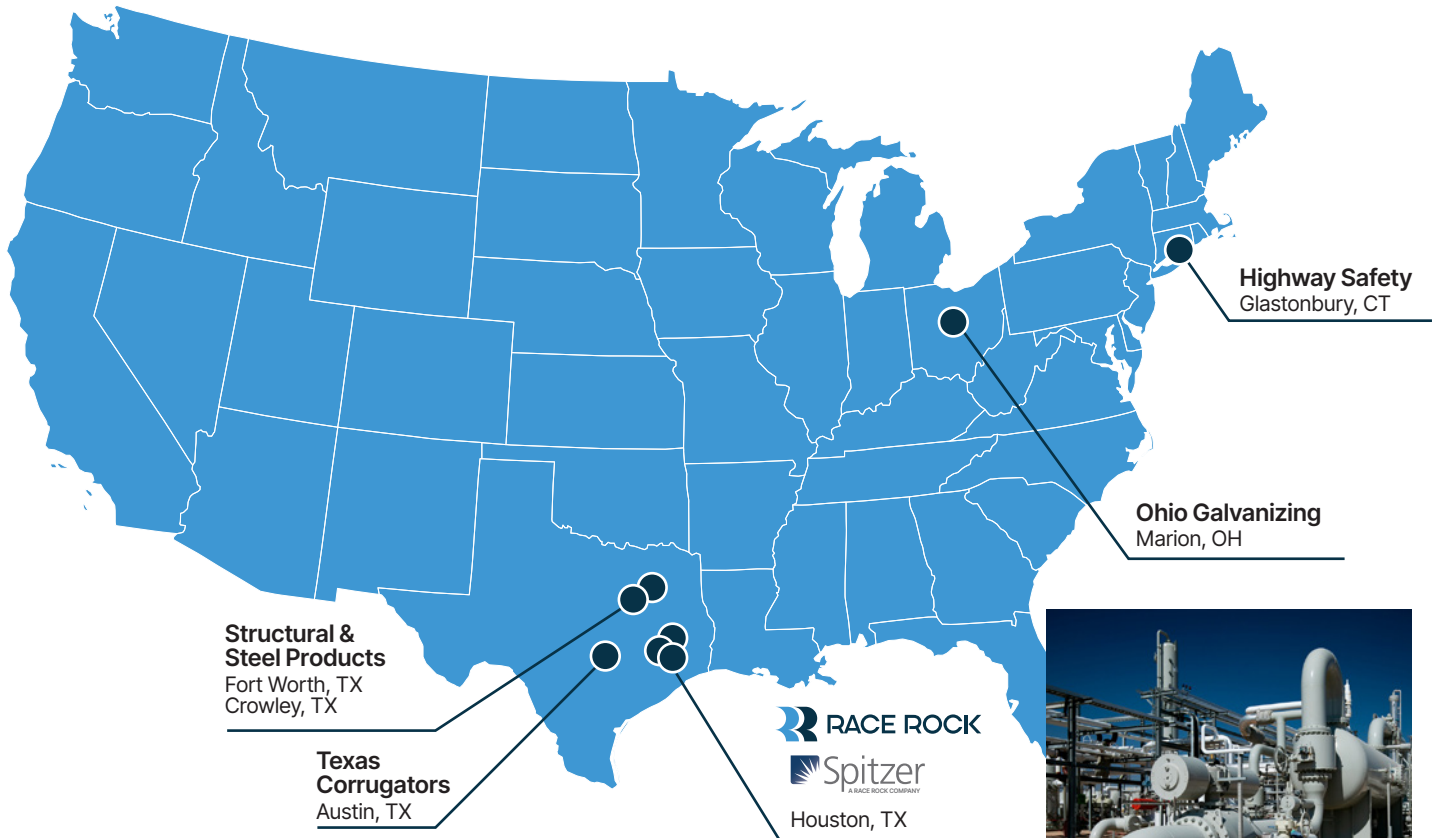

Responsive support backed by experienced engineering, certified fabrication, and the capabilities of a diversified infrastructure manufacturer.

- **Attentive, responsive support** throughout the project lifecycle
- **Consistent quality and disciplined manufacturing** across every structure
- **Long-term partnerships** built through proven performance
- **Proactive communication** reduces risk and rework
- **Solutions tailored** to customer and agency requirements
- **Experience supporting transportation infrastructure** nationwide

RACE ROCK

Infrastructure Solutions Across Energy, Transportation, and Industrial Markets

About Race Rock

Race Rock is a privately owned infrastructure platform specializing in engineered steel solutions serving utility, highway safety, transportation, telecommunications, and industrial markets across North America.

Through its operating companies — including Structural & Steel Products, Texas Corrugators, Spitzer, Ohio Galvanizing, and Connecticut Galvanizing — Race Rock designs, fabricates, galvanizes, and delivers transmission and substation structures, highway safety systems, telecommunications poles and towers, solar support structures, and large-scale industrial fabrication and modular systems supporting energy, data center, and process infrastructure.

Spitzer expands the platform's capabilities into complex heavy fabrication, including modular process systems, structural assemblies, subsea infrastructure, and large industrial projects.

Vertical integration across engineering, fabrication, and galvanizing strengthens quality control, accelerates turnaround times, and ensures dependable delivery across critical infrastructure programs.

Race Rock's mission is to serve as **a trusted partner to those who build and maintain America's critical infrastructure.**

RACE ROCK

Multiple Facilities Supporting Transportation & Lighting Projects at Scale

Fort Worth

180,000 ft² manufacturing

Capacity to manufacture **>30,000 tons** of steel structures annually

Advanced steel plate processing system

Crowley

>90,000 ft² manufacturing

Capacity to manufacture **>10,000 tons** of steel structures annually

On-site Galvanizing (AZZ 58-ft kettle), enabling accelerated turnaround times while maintaining quality standards.

Certifications backed by rigorous in-house inspection and quality control
